NOT CONTROLLED BY THE BIG INTERESTS

NEW INDUSTRIES are essential to the prosperity of any community. The BIG INTERESTS have always discouraged new industries in the past. WHY? The answer is very plain.

To the BIG INTERESTS a new industry means a rival industry.

A rival industry means a competitor in the labor market and competition in the labor market means an increase in WAGES.

The BIG INTERESTS do not want increased wages, increased dividends being more to their liking.

In their avaricious policy of watered stocks and extra dividends they sink every finer instinct and entirely forget that labor which produces should have its just recompense.

Secretary Fisher, in his remarks, intimated that the BIG INTERESTS in control are intoxicated with their power.

The truth of this remark is very apparent, for we see it demonstrated every day. It applies especially to politics.

Their control of the Legislature in the past and their effort to continue their control at any cost proves this to be a fact.

I cannot believe that the intelligent and independent voter will stand for a continuation of such a condition. No intelligent man, be he a voter or not, can possibly believe that because EUGAR is our principal production the LEGISLATURE of HAWAII should be controlled by that one industry. THE LEGISLATURE BELONGS TO THE PEOPLE, NOT TO THE BIG INTERESTS.

SPARTAN JUSTICE EXECUTED IN CHINA

The Pekin correspondent of the Cablenews-American telegraphed the following story to his paper:

A pathetic story, featured by a discharge of duty unusual for the Orient, comes from Tung-chow, where Gen. Chang Kwei-ti, a patriot over whose head 80 years have passed, tried the Tung-chow mutineers, and in so doing refused to spare even his only grandson.

The grandson of the aged chief was implicated in the mutiny, and the trial convicted him beyond question. The young man and his family made a strong plea for mercy, and it was intimated by high officialdom that an exception could be made in this individual case. General Chang Kwei-tai replied:

"Although the accused is my only grandson, he transgressed the law and must suffer the punishment which his offense calls for."

The young man was executed with the other mutineers, and Gen. Chang, overcome by grief, is now seriously ill.

It is said in London that all suffragettes will go armed in the future, as a result of the disgraceful manhandling of a woman who interrupted a speech made by Lloyd George in Wales.

The infant daughter of Baron and Lady Decies was christened in London. The child was named Eileen Vivian Delapoor Beresford. The mother was the former Vivian Gould.

France has decided to build a squadron of swift fleet in addition to the swarm of aeroplanes already possessed by the army.

IT'S TIME to think of those pictures of the baby.

We like to let them make our studio their play house.

That means natural pictures.

MAKE AN APPOINTMENT NOW

LILIHUA MEETING TONIGHT IS FEATURE

Tonight at the corner of Liliha and School streets, there is to be a monster meeting of Republicans. It promises to be one of the greatest meetings of the campaign. It has been well advertised and much talked of. Already have hundreds expressed their intention of being present. The locality chosen for the meeting is significant. It is at the junction of four precincts.

Harry Kahale of the twelfth precinct of the fifth district will be in charge of the gathering. He is well known and well liked. In fact he is one of the old war-horses of the Republican party, and the mere fact that he is to preside will insure a large attendance. Incidentally the twelfth precinct of the fifth district is the home of Senator Kaloopa and this fact alone is a guarantee of the success of the meeting. There will be music, too. An excellent quartet has been engaged for the occasion and there will be, between the speeches, entertainment of a high order.

This meeting is likely to go down in the history of the campaign as one of the most pleasing to the community. The speakers will be men of eloquence and wit. Without the wit, of course there would be a dull stretch. But wit is scheduled and wit will be provided. Women as well as men are sure to show themselves. Moving pictures, as usual, will attract the crowds, but there will be, if the signs don't fail, a great gathering this evening on the corner of Liliha and school streets.

DOG QUARANTINE

(Continued from Page 1)

ent of forestry, recommending the creation of a string of small forest reserves in Waianae district, being at Nanakuli, Puakala and Makua, was referred to the forestry committee, as was a request from A. M. Brown for privileges in the Kula forest reserve, Maui, lately proclaimed.

It was stated that Superintendent Hooper would return from the mainland next month.

President Giffard stated that he had taken a day and a half for looking into the Makawao and Hana forests Maui for the purpose of procuring first-hand knowledge for his annual report.

The president asked for funds to erect a building on the Nursery grounds for the use of Dr. Bach, the federal agent of fruit fly quarantine here. It would cost about \$2000. He was authorized to call for bids for the work, action to be taken thereon when received.

In attendance with the president were Commissioners J. M. Dowsett, Albert Waterhouse and Arthur H. Rice.

Mothesia Kondo, a Japanese aviator, was killed when his machine collided with a windmill at Savona, New York.

Helen Taft is said to be a crack shot with the rifle. She has been taking lessons from some of the government experts.

Colonel Cornelius Vanderbilt took his first aeroplane flight on Long Island the other day, and said he would go again if no one told his wife.

James E. Gorman, in the national competition of the United States revolver association (in Oakland, Cal.) tied his own world's record of a possible 100.

The Cherries, of the "Y" Bowling League, should be easy picking.

COLLEGE OF HAWAII STUDENTS WOULD SECURE ATHLETIC FIELD

Activities Begin with Selection of Committees to Plan Coming Affairs

In accordance with the proceedings of the meeting of the Associated Student Body of the College of Hawaii last Friday, the following committees have been appointed, to take charge of their various duties at once:

Committee on Grounds—V. Marcalino (chairman), Leslie Clark, H. Talbot, P. Lemke.

Committee on Play—Dr. A. L. Andrews (chairman), Miss M. Clark, Miss B. Smith.

Committee on Picnics—Miss L. Boyd (chairman), Mr. W. A. Bryan, Mr. Barnhart.

Committee on Glee Club—Miss Shirley Foster (chairman), Miss Marjila Smith, Scott Pratt.

Committee on College Pin—P. Lemke (chairman), Miss M. Clark, Miss M. Chipman.

Arbor Day Committee—W. Melnick (chairman), C. Cousens, F. Stickney.

To Get Athletic Field.

The committee on grounds is to confer with a similar faculty committee as to the location of an athletic field and is to exercise supervision over it when it has been completed. The money for the construction of this athletic field is to be supplied from certain college funds.

This same committee is also to devise ways and means for the acquisition of a tennis court and will also have the supervision of it. The funds necessary for the construction of this court are to be supplied partially or in whole from the proceeds derived from a college play to be given soon.

No meeting of this committee has as yet been announced.

The play committee is to have complete charge of the selection, cast, time, place, etc. of the play. The college has no suitable hall for the production of this play and so the committee will have to decide upon some place in which to give it. No trouble is to be expected in the providing of a cast as all the students seem to take a great interest in this play.

A meeting of this committee has been set for today.

Will Promote College Spirit.

The committee on picnics met yesterday at noon and decided to have a moonlight picnic, around Diamond Head, on Friday, Oct. 25th.

These picnics are to be held from time to time and are for the purpose of promoting college spirit and of bringing the students into closer contact with each other.

A meeting of the college Glee Club committee has also been called for today to consider the organizing of a Glee Club at the college. A large amount of promising material is present and no difficulty is expected in the organization of the club.

If organized, the Glee Club will be used for promoting college spirit by giving college songs. It will also be used in working up college yells.

The college pin committee is to select designs and ascertain prices and submit them to the Association where they will be voted upon by the students.

To Observe Arbor Day.

President Gilmore desires that the College observe Arbor Day and so an Arbor Day committee was appointed. Trees are at present a very desirable quantity on the campus and the arrangements for the planting of a considerable number will be decided upon by the committee.

The committee will consult with the Faculty as to all final arrangements.

The chairman of these committees are setting the dates of meeting for as soon as possible and are showing great activity in promoting interest in them.

TEDDY MAY BE A REAL EDITOR

Rumor Frank Munsey is Willing to Take a Chance with Daily Paper

NEW YORK, October 7.—A report was published this afternoon that Frank A. Munsey and Colonel Theodore Roosevelt had come to an arrangement whereby, in the event of the Colonel not being elected to the Presidency next month, he would become editor of the New York Press, the latest acquired of Mr. Munsey's string of publications.

A report was also current that the Bull Moose candidate would receive a salary of \$50,000 for editing the Press, as against \$20,000 which he is said to receive as contributing editor to The Outlook. Also the story has it that the press really was owned by George W. Perkins and Oscar Straus, who were merely using Munsey's name.

When Mr. Munsey was asked about this report he stated the following reply: "What you say to be about the rumor that Mr. Roosevelt is to become editor of the New York Press after November 6th is the first intimation I have had on the subject. I never discussed this idea with Mr. Roosevelt. Neither has he discussed it with me. Neither has it ever been discussed or thought of by anybody to my knowledge. It goes without saying that if Colonel Roosevelt is not elected President, nothing would please me so much as to secure a man of his ability for any one of my papers. I do not mind saying in this connection that the salary that has already been fixed upon in Park Row—\$50,000 a year—wouldn't stand in the way. Instead, I think I could make money in my publishing business on Mr. Roosevelt at a salary of \$100,000 a year. I am sorry to disappoint Park Row in being compelled to say that George W. Perkins and Oscar Straus had nothing to do with the purchase of the New York Press."

LET DR. ELECTRICITY FEEL YOUR PULSE

Heart Beats Can Be Wired Around the Globe, Says Harvard Expert

CAMBRIDGE, Sept. 30.—Keeping in touch with a patient's pulse, though he be miles away is the innovation now on trial at the Harvard Medical School. A similar device is also being employed in the London Medical College. After the proper electrical connection has been made, all the patient has to do is to place the hand in a solution of warm salt water. The electric currents from the hand are carried by wires to the instrument recording the heart beats.

"It is now possible for a physician to note," says Dr. Percy E. Brown, X-ray expert of Harvard, "the heart beat of a patient who may be hundreds of miles away. In fact, he can study the heart action of a man on the other side of the world. By this electrical device can be recorded every movement of the heart and the muscles about the heart, at any distance, through a system of relays similar to that used in telegraphy."

"The recording of a person's heart beats in this manner will really mean more in the way of bringing certain important information before the bodies of medical students than in

aiding a physician in his regular practice. It would be so expensive a method of treatment that the ordinary patient could not afford it."

Whitelaw Reid is said to have definitely announced that he would retire from his British ambassadorship soon. He wishes to return to this country to live.

Philip Salvage, 12 years old, of Brownsville, N. Y., heard a socialist speech, then stole \$80 worth of stockings and distributed them among the poor.

Blue Serge Suits

THERE is no fabric more genteel than the popular and much-wanted BLUE SERGE. No gentleman's wardrobe is complete without a suit of this fabric. They are suitable for all occasions, and always give a man the appearance of being well dressed. We show these serges in various wales, also fancy weaves.

THE CLARION

S. M. Williams, inventor of the powder used in taking flashlight photos, died in San Francisco. He never patented his invention.

Alarik Aho, a Finn, got permission in New York to change his name to Allen, which he believes will be more convenient.

Dr. Paul Walden of Riga, Russia, predicts that the next great feat of chemistry will be the making of eggs from air.

Practically all horses that have been vaccinated in Red Cloud, Neb., to ward off the horse disease are dying.

Norman Selvy, Kid Meador, American prizefighter, filed a suit in Brussels against the Belgian government for \$200,000 damages for arrest and imprisonment.

Edwin C. Moore, superintendent of the Diamond Match company, found dead in a chair in his home Oswego, N. Y. He was 70 years old. Farmers throughout the country say that the crop is now beyond get from a frost and will be more good than harm from one.

The people of Nutley, N. J., are the high cost of living problem eating sparrow pie.
